REGARDING: A new dictionary of words, terms and phrases that will govern all contracts (assumed, implied, express or anything else). I am issuing this new dictionary as a novation to all past, present and future exchange or dealings I have/will have with every organization on the planet.

Be It Known: The “Conditional Acceptance” to Your Offer establishes a Common Law-contract between us under the Postal rule, which states:

“The postal rule (also known as the mailbox rule or "deposited acceptance rule") is a term of common law-contracts which determines the timing of acceptance of an offer when mail is contemplated as the medium of acceptance. The general principle is that a contract is formed when acceptance is actually communicated to the offeror. The mailbox rule is an exception to the general principle. The mailbox rule provides that the contract is formed when a properly prepaid and properly addressed letter of acceptance is posted. One rationale given for the rule is that the offeror nominates the post office as implied agent and thus receipt of the acceptance by the post office is regarded as that of the offeree. The main effect of the mailbox rule is that the risk of acceptance being delivered late or lost in the post is placed upon the offeror. If the offeror is reluctant to accept this risk, he can always require actual receipt before being legally bound.”

Section A - Overall breakdown:

Hello there! I am a state national of the California Republic and I am at peace with the United States as it is defined in 28 USC 3002(15)(A) and how it is described in UCC 9-

307(h). I am a “foreign government” as it is defined in 18 USC 11 and I am proudly protected as an internationally protected person as per 18 USC 112.

I want to openly thank each and every agency and organization that gets this novation and I want it to be very clear that this novation is simply an attempt to simplify not only my life, but the lives of all these agencies that are my trustees as an internationally protected person.

I have recently realized there are many confusing basic words, terms and phrases that can cause issues and breakdown between us in terms of any dealings we may be involved in.

I have spent hundreds or thousands of hours really getting to know and understand the glorious world of law and statutes. I have become a very close friend with the United States Code, the Code of Federal Regulations and the Uniform Commercial Code.

I appreciate you so much for administering my accounts in any way, shape or form. Even if you have never performed a service for me, I appreciate the possibility of any services you may deliver to me in the future.

Much of these definitions were sparked from this glorious piece of case law from our incredible legal system (of which I love very much):

“Sovereignty itself is, of course, not subject to law, for it is the author and source of law; but in our system, while sovereign powers are delegated to the agencies of government, sovereignty itself remains with the people, by whom and for whom all government exists and acts. And the law is the definition and limitation of power.” Yick Wo V. Hopkins - Supreme Court 118 U.S. 356 (1886).

All definitions for all words used in other definitions in this space all come from these specific redefined words.

All these definitions, since this is an affidavit, are considered various “points” of truth of this affidavit. Each definition is completely separate and each definition is an entire section of truth in itself. If there are any disagreements or clarifications of any of these definitions, please send back an affidavit by a particular individual that I can work with to nail down each of these individual definitions for all past and future dealings.

Section B - Definitions:

Novation:

Defined as a change in a contract, partial or full. In essence, it is a conditional acceptance regarding a current contract due to changes in the agreement.

Signature:

Defined as: A cursive writing, using a pen and paper, unique to each person, of some sort of artistic symbolism that proves their identity due to the unique style in which it is written. If this is to be done on behalf of a trust, corporation or any “artificial entity,” it must be expressed, in the same font and size, like this: “Signature of living man or woman [name of living man or woman] on behalf of artificial person named [name of artificial person].” - ALL RIGHTS BEING RESERVED AT ALL TIMES WILL ALWAYS BE IMPLIED IN ALL SIGNATURES AND THE WAIVING OF THOSE RIGHTS ARE NOT POSSIBLE IN ANY SITUATION.

Artificial entity:

Defined as: a corporation, trust or other name of something indicating a collective body of individuals. These bodies do not operate as “persons” in law and do not provide limited liability except a trust, specifically, due to its natural structure. The only benefit of a corporation would be the codes, rules and statutes offered by electing to incorporate (the structure). The building of this structure, in statute, is a service that someone may want to voluntarily involve themselves in.

Autograph:

Defined as: A cursive writing, using a pen and paper, unique to each living man or woman, of some sort of artistic symbolism that proves their identity due to the unique style in which it is written.

De facto:

Defined as: the corporate world that is under the Crown of England. The entire structure that was created under the Crown and is offered as a structure for Commerce. People can voluntarily contract into this system as they want in an effort to have a pre-built structure that they may plug into for ease-of-use, support, etc.

De jure:

Defined as: the non-corporate world that has nothing to do with the statutes, rules and boundaries set up by the Crown. Operating entirely in a new space where you create your own rules and boundaries. Your “Codes” are created by you and used to contract as you see fit. The de jure is governed by Common Law which is simply don’t hurt

people or their property and be transparent in your offers and contracts. True law is found in the de jure.

Spouse:

Means husband, wife, partner, man, woman, family, couple, and any other similar word to what people are known to refer to as two people in a wedlock:

There can only ever be 2 people in any marriage and any other third party that is married to the man and his wife is committing fraud and harming both people in said marriage

Marriage:

Marriage in Australia is said to be union of 2 people to exclusion of all others voluntarily entered for life. This means that for that marriage to end someone has to die, otherwise no individual or government is allowed to interfere.

Peoples personal beliefs permit the individuals to believe in God and sometimes they choose to get married in front of God as their witness.

Gods children

It is taught by religions all over the world that we are all children of God and he made us in his image. Thereby any offspring born to a mum and dad is a progine of the Heavenly father and mum and dad are the offsprings Earthly mum and dad. For an offspring to be brought into this world as pro-created by mum and dad means that those two people are bonded for life by God who has blessed them with an offspring to care for and nurture. Therefore any individual or state or government have no right to claim dominion over the care for the offspring or the familys private affairs. The court and other members of general public do have a moral obligation to make sure all people are protected from harm and as such the de-facto governments occupying these lands do have the right to intervene if there is harm being done to any man woman or child.

Protection from harm

This is usually applicable to women and in todays societies women are rightly given more protection as they are the weaker of the two classes of people. That is not to say that men cannot be harmed or abused or unjustly attacked or treated. In dealings with me, every man and woman has the inherent right given to them by god to be treated fairly and equally and to be forgiven for their trespasses, but also to protect their own interests and seek compensation from those who continuously harm them or their family

“person,” “human being” and “individual”:

After reading 1 USC 8, these words/terms are defined as: “a nothingness which produces a somethingness. The seat of creativity. This is not the brain, nor the body, but is a potential consciousness that has no space, no wavelength, no mass and no location. This essence contains the decisions and definitions associated with interaction, identity, ethics, morals and integrity.”

Ethics:

Defined as: what the individual considers right/wrong (and why).

Morals:

Defined as: the spoken AND UNSPOKEN ideas of what a group considers right/wrong (and why).

Banking:

Defined as: the operation of electrical energy translated to the world of money and finance. The creation, flow and use of any form of energy that is used as the intermediary of trade or commerce. Any item that would be used as a mode of exchange and that follows all the rules of physics as regards to flow and energy. The highest form of “banker,” in the literal sense, would be an electrical engineer. Banking in the de facto is accomplished by the creation of credit in relationship to the overall future potential exchange capacity of a person. Banking in the de jure is the coining and handling of silver and gold COINS in an effort to create a stable and functional exchange medium.

Bank:

Defined as: in the de facto it would be any individual that converts one note into another or creates notes. In the de jure it would be the storing, safe keeping, transferring and exchanging of gold/silver coins. No licenses or “approval” is needed to be a bank and every individual person IS a bank, by definition, in the de facto. Anyone who can promise that some amount will be paid in the future is, by definition, a bank.

Note/instrument/negotiable instrument/security/bond:

Defined as: a promise made in writing. It’s that fucking simple. It could be a promise to PAY something or a promise to DO something. In the de facto, a promise to DO something is normally called a “performance contract.”

Payment:

Defined as: in the de facto it means to write up a promise to pay at some point in the future and send it in. In the de jure it means to give them gold/silver coins without any attached condition (the action is final with no additional stipulations).

Discharge:

Defined as: to sign a promise or pledge to pay once money is reintroduced into the society and to send it in. This is only required in the de facto.

Limited liability:

Defined as: the degradation of personal power by assuming that there are problems that could pop up that you would be incapable of handling. A shrinking of personal confidence that stems from a person committing acts that they deem worthy of shame or guilt. Personal shrinkage.

Problems:

Defined as: the normal idea of problems is “something of which is considered pesky, unwanted, difficult and unappreciated. Something of which a person generally would rather not have.” This definition puts all the power of the situation into the problem itself. The new definition of “problem” is: “that of which gives excitement and interest to a story. The element of a story that is considered and defined, entirely out of the free will of the person, to be something unwanted. The “problem” is the element of which all adventures are born. The resolution of a “problem” is the entire structure of a journey.”

Consideration:

Defined as: something given of value that all parties consider of value and continue to consider of value throughout the entire life of the contract or agreement. If either party decides, during the life of a contract, that consideration is no longer equal, then that contract can be instantaneously canceled from that moment. Fraud vitiates all contracts from their inception and acts as though a contract never existed to begin with.

Fraud:

Defined as: any attempt to create illusion, delusion, vagueness or over-complexity in an effort to confuse or reduce the ability to perceive or understand something. THE HIGHEST LEVEL OF FRAUD IS THE ALTERATION OF DEFINITIONS OF WORDS OR TERMS. Fraud, when applied to the definitions of words, terms or phrases will be a charge of treason and, pursuant to even the de facto 18 U.S. Code § 2381, EVERYONE involved will be sentenced to death if found guilty by a Grand Jury. All men and all women deserve to live a life of honest and transparent dealings.

Understand/under stand/under-stand:

Defined as: to conceptually copy information into your own mind, contribute to it (invest in it) in an effort to make it your own, then be able to apply it in the physical world to the product of an effective effect. This definition explicitly negates any idea that these words may be used to trick someone into granting dominion or power over them.

Conceptually:

Defined as: to have a basic idea in the mind that comes across almost as the idea of “an understanding in the form of energy” - meaning having so much comprehension of some particular word or thing that you can get the feeling in your mind that you do not even need words or symbols to explain the ideas. A conceptual understanding of something may even leave the person saying “I know what it is, I simply can’t put it into words.” The ideas are devoid of having to use the “crutch” of other words or symbols. It is a full immersion into an idea or term that feels almost as if you are the source of the definition of the word or idea itself. You can “feel” the definition. **YOU ARE THE DEFINITION.**

Definition:

Defined as: the exact, agreed-upon boundaries of the meaning of a series of symbols, behavior, or anything else. A definition could be entirely unknown or mistaken, but an “incorrect definition” would be the largest aspect that this section should clarify. An “incorrect definition” would be a meaning that is either too narrow or too wide, too simple or too complex, too vague or too specific. A definition is the contract associated with the meaning of the word, idea, phrase, etc. The source of credit and law, which is the well-intentioned inhabitant or contributing member of a group, has the highest rank in terms of the creation, clarification or changing of definitions. Definitions are living, breathing things and are the most important aspect to all contracts and communication. **VAGUE OR OVER-COMPLICATED DEFINITIONS WILL BE VIEWED AND ASSUMED TO BE AN ATTEMPT TO DECEIVE AND WILL BE CLASSIFIED AS FRAUD.**

Terminal:

In order to understand banking, the idea of a terminal must be understood. This term comes from the terminology used in batteries and electricity. A terminal is a person who is effectively (or potentially) exchanging goods and/or services in a way that contributes to building a society or a market.

Market:

Defined as: a group of people, small or large, that is exchanging goods and services in an effort to make life more exciting, more interesting, easier, etc. The basis of legality of all market transactions is found in the idea of consent. “Harmful” goods and services may be offered legally as long as all parties in the transaction are consenting and that

transaction or activity does not encroach into the freedoms of another person who may not agree with what is happening.

Consent:

Defined as: understanding, as defined in this definitions section, of the contract or agreement in question. This understanding is then mixed with explicit agreement. Explicit agreement is important because assuming agreement or consent is quite dangerous. Agreement and consent should be explicit and “tacit consent” or “consent due to acquiescence” is essentially rape in commerce.

Rape:

Defined as: any forced contract that did not have explicit understanding and consent at the inception and throughout the entire duration of the contract.

Debtor:

A debtor is someone who owes a true negative in an agreement or contract where they have received true value and consideration but have not reciprocated that consideration to a sufficient point for both parties (within reason). A debtor cannot be a debtor if they did not consciously and expressly involve themselves in the contract to begin with.

Creditor:

Defined as: Someone who leverages their future potential productivity in a way to help someone else. In America, the basic creditor is a common American. Corporations cannot be creditors, only individual persons can be creditors. A creditor is only a creditor if they offer something of value that is fully transparent and not some form of trickery where there is only the ILLUSION of value and not true substantiated value. Any attempt to use illusion and trickery to create debtors out of large groups of people will be charged with treason and, pursuant to even the de facto 18 U.S. Code § 2381, EVERYONE involved will be sentenced to death if found guilty by a Grand Jury. The de facto 15 USC 1602 has an EXCELLENT definition as well: “(f) The term “credit” means the right granted by a creditor to a debtor to defer payment of debt or to incur debt and defer its payment.”

Truth:

Defined as: the information that, when exposed and understood, eliminates all negative conditions. For example: negative emotions, guilt, shame, stupidity, hate, etc.

Guilt:

Defined as: a feeling of degradation that stems from someone else effectively persuading you that your actions have directly harmed them.

Shame:

Defined as: active self-degradation that stems from believing that your actions harm or degrade others. This is only possible due to the collective previous persuasions of others that you have or can hurt them. It is the idea of “being careful” taken to the level of absurdity.

Degrade:

Defined as: to lower one’s value.

Value:

Defined as: the perception of supply versus demand. Something that “everyone wants” that no one can have would have the highest perceived value. Value is entirely calculated through the nature of humans and their interest in making life an interesting game.

Freedom:

Defined as: A condition that is the product of having a vast amount more truth than lies on any given subject, mixed with being devoid of guilt and shame on that particular subject.

Admiration:

Defined as: the ability to appreciate anyone or anything for what they are and to enjoy their flaws and their beauties as nothing more than a creation of expression assumed to be entirely within their will. This includes permitting someone to destroy their life as they see fit, as long as that destruction does not harm or damage others.

“State,” “state,” and “STATE”:

Defined as: the original de jure states of the Republic such as California. These are not incorporated and are owned and controlled by the people who physically inhabit them more than half the year in one calendar year. No one is allowed to sign or attest to the fact that they live anywhere else and the only way to pin someone in a location is through the activity of producing evidence to a Grand Jury. These definitions deliberately and explicitly ignore and negate any incorporated elements or other trickery involved trying or attempting to deceive. State government, in terms of power and jurisdiction, is lower than the inhabitants and people who make up the state. Courts in a state operate in the same way as marriage counseling would act if there is a dispute: an agreed-upon intermediary by all parties would help to assist to bring resolution to any dispute BUT THIS CONTRACT WOULD BE AT-WILL FOR ALL PARTIES UNLESS THERE IS EXPLICIT EVIDENCE THAT PROVES A PARTY TO BE HARMFUL TO

OTHERS. State government is the highest form of government available and is always held by the people who inhabit that state, even if there is no official body or office of government activity. Each state is legally a separate country to one another in law. The sheriff is responsible for enforcing laws and handling disputes in the field and his ultimate purpose is “to handle the surface manifestations of society.” Whereas the courts then take the surface manifestations of society and dig deeper in an effort to permanently address difficulties in the society or culture. The purpose of a judge or court is “to dig deeper into the surface manifestations of society in an effort to find the source of disputes and eliminate their unnecessary manufacture.”

The District of Columbia (“Washington D.C.”):

Defined as: a for-profit private corporation that is foreign to all the individual states. The purpose of this corporation is to SERVE THE STATES in an effort to help with state-to-state communication, commerce, etc. They do not have the ability to govern outside of their tiny ten-square mile sandbox. They are essentially a private contractor that is employed to enhance interstate activity. They can be fired no differently than a plumber or carpenter if any individual state decides to do so. Each individual state is contracted into this corporation as a request for assistance. The District of Columbia is not allowed to use any trickery to describe itself, such as the term “United States.” Any attempt to deceive will be considered fraud or treason and will be treated accordingly. The primary purpose for Washington DC is “to create a prosperous country by enhancing that which is creating abundance and destroying or eliminating that which is creating scarcity. To ensure that the Constitution of the original non-incorporated America is adhered to by ensuring its application in interstate dealings. To assist each and every state with any scarcities they may encounter.”

Money:

Defined as: gold and/or silver coins. Without gold and/or silver coins involved in a transaction, there is no negative or positive gain in the real world. There can only be a false illusion of positive or negative gain. “Profit and loss” can only be computed through the exchange of gold/silver coins. Any commercial activity in the de facto that is not exchanging silver and gold coins is, by definition, a “non-profit activity.”

United States:

Defined as: the original states of the Republic being referred to as a collective. The “United States” is not, in itself, a country. Each individual state is a country, by law. This definition specifically and explicitly negates the definition found in 28 USC 3002(15), as well as the description found in UCC 9-307(h). Any de facto corporation found using the term “United States” will automatically be changed to “only and explicitly the District of Columbia.” The “Federal corporation” does not have any jurisdiction in the 50 individual

states of America and this term being used is very heavy fraud that very few people know about. Any vague or unclear use of this term will be a charge of treason and, pursuant to even the de facto 18 U.S. Code § 2381, everyone involved will be sentenced to death if found guilty by a Grand Jury. Any use of this definition will be assumed that the person using it does not know this definition and the prosecution of the use of this term will need EXTENSIVE levels of evidence that proves INTENT. This term is the core aspect of the difficulties in our glorious country. Assumption that the use of this term is of ill-will should NOT be done, as all assumptions should be a lack of comprehension of this most deadly term.

Republic:

Defined as: unincorporated original states of America. The 50 states.

Taxpayer:

Defined as: anyone who willingly and knowingly wishes to gift their money or currency then completes the action of actually gifting it. Just because they donated once does not permanently make them a “taxpayer.” They can only be assumed to be a taxpayer at the exact moment of donation... not a minute before or a minute after.

Currency:

Defined as: anything used as a medium of exchange. The words “money” and “currency” ARE VERY DIFFERENT. Currency could be bottle caps, small pieces of metal, paper, or anything else. Currency is not required to be silver/gold coins.

Corporation/business:

Defined as: an organization that operates under the Crown of England. The entire contract breaks down like this: someone APPLIES for approval to be under the codes, regulations and rules of the Crown of England, then is approved and allowed to operate in their world. There are various services available in that world that provide structure and boundaries in exchange for fees and other consideration. Contracting into this body of rules and regulations is a choice and each person should look at the pros, cons and benefits associated with doing so prior to requesting approval.

Loan:

Defined as: in the de facto, it is the creation of a promissory note by a person based off their future potential productivity, which is then exchanged with the Federal Reserve for Federal Reserve Notes. A “financial institution” is not required to convert the promissory note into Federal Reserve Notes but may be utilized for assistance if needed. A “financial institution” hired to provide this service is nothing more than a contracted servicer and the loan is NOT being given by them. Any effort to trick or deceive as to

who is creating the loan or giving the loan will be treated as fraud or treason and handled accordingly. In the de jure it is the issuing of silver/gold coins at interest.

Lies:

Defined as: pieces of information that degrade and/or create/enhance bad conditions.

One of the purposes of the courts is “to locate and obliterate the sources of lies.”

Trust:

Defined as: an agreement where assets are held and administered by a trustee for the benefit of a beneficiary. This structure comes straight from God through the Bible and, while there have been corporate versions of trusts created in an effort to deceive, THIS DEFINITION SPECIFICALLY AND EXPLICITLY DOES NOT INCLUDE THOSE TYPES OF “TRUSTS.” Corporate trusts are not trusts, they are corporations. This is a definition of truth, not deception. Any efforts to call a corporation a trust would fall under treason and, pursuant to even the de facto 18 U.S. Code § 2381, anyone involved in that will be sentenced to death if found guilty by a Grand Jury. This definition of trust only applies to the completely non-incorporated original trust agreements that are entirely and completely sovereign and un-a-lien-able. Trusts are not within the jurisdiction or purview of any corporate element, government element, or anything else. They are governed only and entirely by the people who are involved in the trust. Trusts are NOT created by government or any corporation and are created by a grantor/executor, which is a person who simply brings the trust into being.

Sovereign:

Defined as: a person’s status outside of any external group or corporate system. This status cannot be signed away or given away under any circumstances. The only avenue to truly relinquish sovereignty is suicide.

Suicide:

Defined as: to kill oneself as a willful act of ending the contract of life.

Government:

Defined as: an organization that is below the level of the power of an American that is operated to keep the peace in the society and assist cultures and societies to remove elements that cause unnecessary turbulence in the society. The basic purpose of government is “to create and foster a culture that is flourishing, free of disputes and confusions/lies. A planter and harvester of truth.” No corporation can be a government, as the purpose of a corporation is “maximum profit for shareholders” and that creates a massive conflict of interest.

*Supreme court case of Elkins Et Al v. United States, 364 U.S. 206: “In a government of laws, existence of the government will be imperiled if it fails to observe the law scrupulously. Our government is the potent, the omnipresent teacher. For good or ill, it teaches the whole people by its example. Crime is contagious. If the government becomes a lawbreaker, it breeds contempt for law, it invites every man to become a law unto himself, and it invites anarchy.”

Citizen:

Defined as: someone who willingly and knowingly applies to become a part of a group or club and agrees to follow the rules of the group or club if their application is accepted. This agreement or contract is “at will” and severable at any time between all parties if presented in writing. Regardless of the action of becoming a “citizen” of a corporation, this does not affect, negate, “clarify” or mitigate their sovereign rights. The corporate version of the word “citizen” is “employee.”

Employee:

Defined as: a citizen of a corporation.

US Citizen/U.S. Person:

Defined as: both of these terms are now redefined to mean the definitions of “United States,” “person,” and “citizen” explicitly and only from this novation. Any efforts to use either of these definitions in an attempt to mitigate, reduce, “clarify” or eliminate any natural human rights would fall under treason and, pursuant to even the de facto 18 U.S. Code § 2381, everyone involved will be sentenced to death if found guilty by a Grand Jury. This definition assumes the 14th Amendment was never properly ratified and assumes it’s non-existence since its supposed inception. No one, even the people who actually work for the government, deserve to have their natural right eroded due to any title or badge. All people are assumed to be alive, sentient, intelligent, caring and acceptable. Regardless of their labels or titles, all people are deserving of respect and their rights are protected, no different than anyone else. This includes judges, police, drug dealers, priests, clerks, and any other types of title, occupation or description.

Passport:

Defined as: a quick and easy way to identify oneself in terms of culture, domicile, etc. A passport is not necessary and simply greases the gears of the social world. It is wholly non-commerce and has more to do with a person’s private activities.

Commerce:

Defined as: willful and knowing contract with a body of government that exchanges valuable structure of bylaws and rules in exchange for donations or fees. Non-

commerce would be defined as simply a choice to not be contracted into a body of statutes that a person deems not valuable. Commerce is entirely willful and just because a person is exchanging goods DOES NOT force him to operate in any body of commerce that he himself does not agree to participate in.

Statutes/Policy/Codes:

Defined as: rules that are created by a government, corporation or group for the purpose of creating structure and agreement for the willing members of the group. Policy. A person may be involved in many sets of statutes in various areas of their life. These spoken or implied agreements allow them to navigate their endeavors and no statutes are ever imposed on them beyond their will and awareness. If any group decides that a person has gone too far outside their statutes, they remove the person from the group beyond their will to be in that group.

Law:

Definition: exact and specific rules or boundaries that all of mankind naturally, spoken or unspoken, agree on. Any attempt to sabotage, weaponize or use law to degrade, harm or destroy would fall under treason and, pursuant to even the de facto 18 U.S. Code § 2381, anyone involved will be sentenced to death if found guilty by a Grand Jury. Everyone has the protections of true law, even those that are involved in groups with specific Codes. No Code or statute will ever cloud or supersede an individual's natural law and any attempt to reduce the rights of any governmental employee or corporate citizen is tantamount to treason. Anyone operating with the intention to help others has the full protections of law at all times and their standing as a man or woman is primary in law above all other titles. Law is designed to disarm the person who has the intention to harm and to empower the person with the intention to help.

Certificate of Title (or any other name for a document proving ownership or interest):

Defined as: essentially a receipt that shows that the Manufacturer's Certificate of Origin (MCO) of a vehicle is being safely kept by the state. The Certificate of Title is an exact duplicate in power in law as the MCO and is not an abstract or representation of the Manufacturer's Certificate of Origin, but it IS the MCO, simply in another format. The holding of a Certificate of Title is the exact same as the holding of the MCO and transferring a Certificate of Title is the same as transferring the MCO itself. Registration is nothing more than the fees that are paid in exchange for the protection of the MCO and transferring of it. At no point in time does the state own or have a legal interest in the vehicle. The state is operating only as a banking lockbox to help protect the MCO and to administrate the transferring of the full rights of the vehicle or automobile.

Manufacturer's Certificate of Origin (MCO):

Defined as: the original birth certificate of a vehicle, describing what was created by the manufacturer. This piece of paper is held in safekeeping by the corporate entity of the District of Columbia via Department of Motor Vehicle centers (or similar names). These MCOs are held in safe-keeping and the Certificates of Title that are issued by the Dept of Motor Vehicles (or any similar corporation) are nothing more than legal copies of the MCO. Exchanging the “Certificate of Title” exchanges the full and entire interest in the MCO from the parties listed on the Certificate of Title. The bill of sale between private individuals who exchange the Certificate of Title is a brand new MCO that essentially shows that the person who has held and modified the car has exchanged that car to the new owner. The Dept of Motor Vehicles (or any other corporation) agrees that the writing and notarization of a bill of sale between persons exchanging a Certificate of Title contains the same power as exchanging the MCO and the bill of sale is a superior title to even the MCO itself. The Dept of Motor Vehicles (or any similar corporation) operates as essentially a bank and holds the superior title for us as essentially a glorified lockbox.

Vehicle/Automobile/Motor vehicle/Motor Carrier:

Defined as: A car, truck, big rig, boat, plane, etc, that could be used for either commercial reasons or non-commercial reasons. These terms are now all interchangeable. No license is required to operate any of the above. If a person wishes, they may acquire a passport for simpler travel in order to identify themselves. If they are willingly contracted into a body of Codes, they may get a Driver’s License that delineates which body of Codes they are subscribed to and any other important information that may be associated with that subscription. All vehicles/automobiles and motor vehicles have superior titles that are held by the holder of the Manufacturer’s Certificate of Origin or the Certificate of Title (or any other official paper that describes ownership). The presentment of a passport, OR NO LICENSE AT ALL, indicates that the vehicle is not involved in any pre-determined statute systems in commerce. The current and exact evidence supporting that a person is involved in commerce is needed to truly and legally/lawfully classify someone as “involved in commerce.” Any automobile moving its own personal property or private passengers are not commerce.

Manufacture/manufacturer:

Defined as: the organization of natural elements into a cohesive system. Something that is the product of a combination of products through some kind of system. Manufacturing also includes the altering or customizing of already-produced products. Any altering to a product in any way makes the person who altered the item the “manufacturer.” This word is literal in the fact that “manu” comes from “made by the hand” - so any changes or alterations or upgrades made by the hands of the previous owner would fit within this definition.

Bill of sale:

Defined as: any document that describes any item being transferred and any customization or alterations that item went through during previous ownership. If notarized, the bill of sale acts as a superior title and is the new Manufacturer's Certificate of Origin for the automobile.

Superior title:

Defined as: the highest and complete sovereign ownership and governance of any item or thing. Defined as: the highest and complete sovereign ownership and governance of any item or thing. In law, the superior titles used by a person are "man" and "woman" and these titles are always assumed to be the primary title above all spoken, written or assumed titles.

Marriage:

Defined as: an agreement with God to have a union with one or more other persons in an effort to make their lives and the lives of others better. A trust agreement. No corporation or "artificial entity" may enter or involve itself with the structure of a marriage as it is a bond between only the individual persons and their God, as defined by them.

Divine:

Defined as: involving or contracted with God (however that may be defined by the individual).

God:

Defined as: a person's idea of the pure energy or the personification of spiritual or ethical idealism. This could be perceived as a body, an idea or anything else and is completely and only definable within the perception and decisions of the individual.

Sovereign citizen:

Defined as: someone who creates unnecessary contention by violently combating things of which they do not understand.

State national:

Defined as: anyone living in any one or any combination of states for more than 6 months of each year. This is the sovereign of America and the rights and location of a state national may not be signed away but may only be proven by evidence beyond all shadow of a doubt. A state national carries the original de jure government and that government lives within him or her forever, regardless if there is a formal office or establishment. It is the duty of a state national to carry the torch in terms of making sure

America is alive, understood and thriving. The well-being of their state or sector is a factor of living in that area and should be considered while living in a zone.

Evidence:

Defined as: proof that establishes location, intention, action and responsibility. Evidence is only required when adjudicating crimes. Perceptions and opinions may very well not be evidence.

Crimes:

Defined as: there must be a victim to have a crime. The “government” or state may not be the victim. “Crime” is established when someone’s rights are exercised to such a broad level that it harms or damages another person.

“Harm” or “damage”:

Defined as: physical or emotional destruction or degradation that can be somehow proven objectively (subjective examples would need more of a track-record of proof in order to be substantiated).

“You,” “Your” or any other small common word:

Defined as: “you” or “your” or any other variation of showing identity and any usage of small common words to try and trick someone into special definitions that degrade or harm will fall under treason and, pursuant to even the de facto 18 U.S. Code § 2381, anyone involved will be sentenced to death if found guilty by a Grand Jury. Redefining these words are an obvious attempt at subversion and are never going to be used in an effort to assist someone. The creation of special definitions for small common words are immediately assumed to be treason, as the intent is clear. This definition was born out of a cognizance of the existence of 20 CFR 422.402 subsection (e). This definition automatically eliminates all definitions of this type and vitiates their existence since their supposed inception.

Represent:

Defined as: to assist another in presenting themselves. No one waives their rights or status in having or demanding assistance.

Driving/traveling:

Defined as: these words now mean the same thing. Someone who produces no license at all or a passport is in non-commerce. Someone producing a Driver’s License is in commerce. THEIR INVOLVEMENT IN COMMERCE MUST BE EVIDENT AND THEIR UNKNOWING PRESENTMENT OF A DRIVER’S LICENSE DOES NOT

AUTOMATICALLY MEAN THEY OPERATE IN COMMERCE. IT IS ONLY AN INDICATOR AND EVIDENCE MUST BE ESTABLISHED.

Social Security/Social Security Account:

Defined as: a trust account that is created where the person pledges their own future potential production and allows it to be securitized in exchange for infinite discharge services from the Social Security Administration, Internal Revenue Service, United States Treasury and another other corporation that might be in the business of assisting a discharge. The contribution of the seemingly infinite value of the individual is then balanced by an infinite trusteeship where all corporations are scrambling and trying as hard as they possibly can to discharge all the debts as rapidly and as smoothly as possible. The person does NOT volunteer their energy as some sort of surety, but gives their energy as nothing more than an investment that makes them the beneficiary of all future activity of the Social Security trust and acts as a discharge center for all of their activities until real money is re-introduced into the society as the primary medium for exchange (gold and silver coins). The Social Security number or account does not “represent” or act as the person at all but simply is labeled in a way, with their name in all capital letters, that signifies who the beneficiary is. This account is used to discharge all debts and the use of the Social Security Administration routing number combined with an account number that is 000[socialsecuritynumber] is an easy and fast way that all beneficiaries can utilize this valuable resource and direct the trustee to discharge their “debts.” THESE DISCHARGES THAT ARE DONE VIA THESE ACCOUNTS ARE TREATED AS THOUGH THEY ARE PAYMENTS WITH GOLD AND SILVER COINS AND ARE FULLY LEGAL AND LAWFUL TRANSACTIONS. All transactions done by people who have a Social Security number are obligations of the United States. All people who have Social Security numbers are creditors (the debtors are the people who use the accounts for credit acquisitions, bankruptcy proceedings, etc.). These Social Security accounts do not represent the people directly who offer their credit. These accounts only simply allow the person to securitize their future production in exchange for infinite discharge service. This relationship can be eliminated by any party with nothing more than a notarized affidavit.

Obligations of the United States:

Defined as: any transaction made or initiated by a person who has a Social Security number or account.

Abundance:

Defined as: the idea that a person has “more than what is needed or desired.” The idea of how much someone needs or desires is entirely up to them and has nothing to do with their environment. This feeling or idea is entirely within the control of each

individual person for each individual area of their life. This ratio of “abundance versus scarcity” gives tremendous excitement in the game of life.

Scarcity:

Defined as: the idea that a person has “less than what is needed or desired.” The idea of how much someone needs or desires is entirely up to them and has nothing to do with their environment. This feeling or idea is entirely within the control of each individual person for each individual area of their life. This ratio of “abundance versus scarcity” gives tremendous excitement in the game of life.

Resident alien:

Defined as: someone who is PROVEN to live in the District of Columbia.

Non-resident alien:

Defined as: someone who is PROVEN to not live in the District of Columbia.

Transmitting utility:

Defined as: a nefarious way of turning the idea of a person into some kind of non-living entity. A person creates exchange and is the source of electrical and monetary energy in the society. A “transmitting utility” is an attempt at making this activity some sort of corporation. This term is now null and void and the use of this word to describe humans and living exchange will be fraud and treason and dealt with as such.

License:

Defined as: permission to do something that would otherwise be considered illegal. This is generally only needed for corporations as men and women do not need licenses but are actually the issuers of licenses themselves.

Intelligence:

Normally, “intelligence” is known as “some fixed and predetermined capacity to understand.” This definition is limiting and was manufactured by the field of psychiatrists in an effort to make people feel overwhelmed by their inability to rapidly grasp something. Due to this sly and highly false definition, humanity has been harmed. The new definition of “intelligence” is simply CURIOSITY. Curiosity (and now “intelligence”) is defined as “a natively infinite ability to find wonderment in things. Each and every person has an immediate and infinite quantity of this. How rapidly they grasp things is simply gauged by the quality of the questions they ask when applying their “intelligence” or curiosity. Poor quality questions reduce the speed of comprehension, but the application of “intelligence” will ALWAYS arrive at an understanding... regardless of the quality of the questions.”

Man:

Defined as: the ultimate title. The ultimate simplicity. One of the basic elements of the battery of nature. The desire to protect. The drive and focus to achieve a goal. One of two original bodies created by God in an effort to be a creation of half of what God is composed of. An incomplete expression of nature. The searcher of beauty.

Woman:

Defined as: The ultimate title. The creator of beauty. Beauty is created by the manufacturer of art. Beauty is not inherent, it is created. The dancing, warm flow of existence. That of which is the great mediator of life. The true logic of life that understands life through the emotional and instinctual understanding of experience. That of which prevents life and existence from using the drive of masculinity in an effort to drive our human race into oblivion. Softness, mediation, flow.

Section C - Limitations of time and acquiescence:

Once the parcel containing this novation is signed for, a 30 day window will begin where, if you have any other specific definitions in this dictionary that you would like to explicitly change or replace with any other definitions, please write it back to me in affidavit form for me to review for approval. After 30 days, all these definitions will activate for all previous, current and future contracts. Thank you so much for reviewing all of these definitions and thank you for filing this novation into any files that involve me (or making a new folder to file this into if I don't have a file with your agency).

What concessions can I get with my card?

Australian Government Concessions

The following information is a guide to the types of concessions you can get with your card. Cardholders are generally eligible for the listed concessions. In some cases, dependants of Health Care Card holders (for example, partners and/or dependent children) may also be eligible for these concessions.

- Prescription and other medicines listed on the Pharmaceutical Benefits Scheme (PBS) at the concessional rate.
- At the discretion of the doctor, bulk billed general practitioner (GP) consultations.
- An increase in benefits for out-of-pocket, out-of-hospital medical expenses above a certain threshold through the extended Medicare Safety Net.

You can request to have your concession card reissued without your partner's name displayed. Contact us to request this. However, in order for you to access concessions for your partner you will need to present the concession card displaying their details.

Other Concessions

See the back of this letter for information about other concessions you may be able to get from your state or territory government.

Further Information

For further information about what concessions are available with your card go to servicesaustralia.gov.au/healthcarecard

About Health Care Cards

Most Health Care Card holders receiving income support payments are automatically issued a card (subject to ongoing eligibility).

The Low Income Health Care Card can also be claimed by low income earners who are not receiving social security payments.

The Low Income Health Care Card is subject to an income test.

The Ex-Carer Allowance (Child) Health Care Card must be claimed every 12 months.

The Digital Wallet is a feature on the Centrelink Express Plus mobile app. It allows you to present your concession card using your smart device. It is entirely at the discretion of the concession provider whether they accept your digital card so you need to make sure you still carry your physical concession card with you.

Read more about the Digital Wallet or download the Express Plus Centrelink mobile app at servicesaustralia.gov.au/expressplus

State and Territory concessions

Concession cards may also entitle cardholders (and in some circumstances their partners and dependent children) to concessions from state and local government authorities and private businesses.

Concessions vary between different states and territories.

Actual eligibility for concessions is at the discretion of the individual concession provider. It is recommended you discuss your concession status with the concession provider directly.

Some state based concessions may not be available to cardholders who are travelling through or temporarily residing in another state.
